Summary

Dedicated DevOps Engineer with over a year of freelance experience in automating, building, deploying, and managing modern cloud-based infrastructure. Proficient in cloud platforms (AWS), containerization (Docker, Kubernetes), and CI/CD pipelines (Jenkins). Strong problem-solving skills with a focus on infrastructure as code, system reliability, and ensuring fast, secure software delivery.

Education

Bachelor Degree in Management and Information Systems

Raya Higher Institute, Damietta | Expected Graduation: 2027

Technical Skills

- **Cloud & Containers:** Amazon Web Services (AWS), Docker, Kubernetes (K8s)
- **CI/CD & Version Control:** Jenkins, Git, GitHub
- **OS & Scripting:** Linux Administration, Bash Shell Scripting, Python, JavaScript
- **Tools:** Postman

Personal Skills : Problem-Solving, Continuous Learning, Working Under Pressure, Adaptability, Flexibility

Experience

Freelance DevOps Engineer : *Jan 2025 - Present*

- Designed and implemented scalable CI/CD pipelines and managed cloud infrastructure (AWS) for various clients.
- Containerized applications using Docker and Kubernetes to ensure consistent environments across development and production.
- Focused on infrastructure as code, monitoring, and automating operational workflows to ensure high availability and security.
